PROFESSIONAL SUMMARY

I am a results-driven Front-end Developer with flair for creating high-performance web solutions. I specialize in React, JavaScript, and responsive design to build visually stunning interfaces that boost engagement by 65%+. I am also a multidisciplinary professional combining technical expertise with public speaking and copywriting skills to deliver compelling digital experiences, and I am currently building a track record of optimizing websites for Nigerian businesses through data-driven UI improvements and API integrations.

I am passionate about user-centered design and staying ahead of emerging web technologies, and I aim to leverage my skills to contribute to the growth of a dynamic organization and gaining valuable experience alongside.
